

Feel safe living in your own home again

From the push of the button that summons live assistance to friendly reminders from real people, our Care Center Associates make the difference. We take great pride in offering the highest quality and most responsive customer care; give us a try and we're sure you'll agree eCaregiver is the best choice.

Personal Help Button

Simply press the Personal Help Button and our advanced technology and specially trained team members work together to bring the assistance that's needed. Whether in case of a medical emergency or for added security, we're always here for you.

Medication Watch

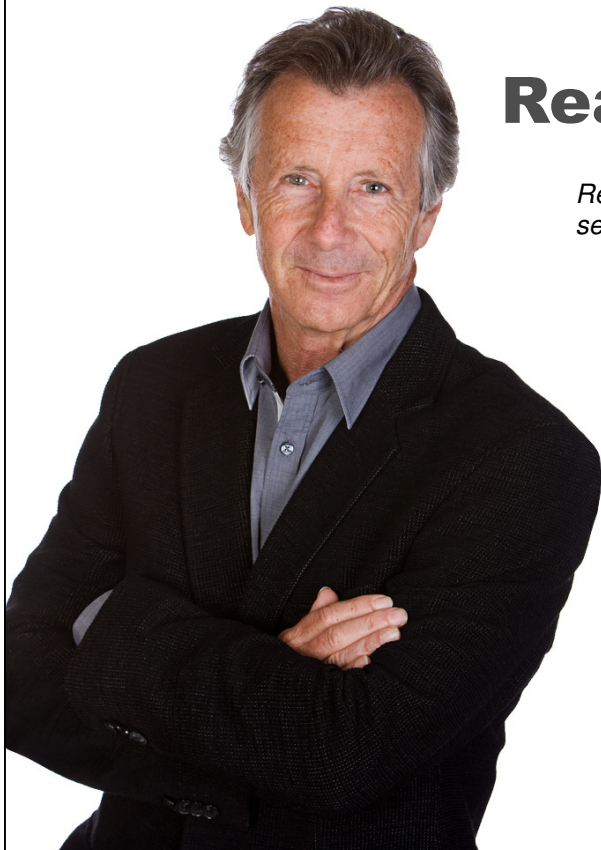

Our Medication Watch systems work because they are easy-to-use and make remembering to take medications a breeze. If a dose is not taken at a certain time, Care Center Associates will let you know with a friendly reminder and/or summon assistance as needed.

Vitals Monitoring & Reporting

Easy to use vital sign monitors can connect caregivers, medical professionals and family for the ultimate integrated healthcare. Our Care Center watches for falls, exceptions to our vital signs, and medication adherence 24 hours a day, 7 days a week, 365 days a year.

eCaregiver has a complete range of in-home care giving products and services for yourself and the ones you love. Please review this brochure and then call or visit our website to join today.

Real care from real people

Rely on us for impeccable customer care, straight answers and honest service. Call or visit us online today for a safe and secure tomorrow.

Personal Help Button

With eCaregiver's medical alert systems you are able to stay safe, independent and at-home longer. Our medical alert systems are easy-to-use and feature the smallest medical alert help button in the industry.

When you need help, simply push your button and one of our friendly Care Center Representatives will answer your call and get you the help that you need. If there's a stranger at your door or you need to step outside, Our Care Call feature is available to you to help keep you safe.

Simply press your button anytime and one of our Care Center Representatives will listen as you answer the door or call to make sure you got back safe from your trip to the mail box. We are here for you 24 hours a day, 7 days a week, 365 days a year.

Vitals & Medication Monitoring

Our proprietary program is proven to lower costs by 20% by recording vital sign statistics in a secure online database that caregivers and doctors can view.

Additionally we can dispense medication on a schedule and offer friendly reminders if the schedule is missed. We can help you set parameters that will trigger a response from our 24-hr Care Center in the event that a test has failed, is outside of normal parameters or even if just to remind one to take their medication.

Pricing and Options

You can order your eCaregiver products and services online or over the phone. We offer free shipping, no long-term contracts, no equipment rental or deposit fees and a solid no hassle cancellation policy.

Happy Customers

"... You and your fellow employees are always so courteous and helpful. I have never spoken to a company that is more friendly and makes things so incredibly simple...."

-- Daphne, Caretaker

"Everything worked beautifully! We put this system into effect only a week or so beforehand and we are so thankful we did!"

-- Beth, Customer
